

Product overview

Put your team on the path to success

A successful business starts with well-equipped teams. Every day, millions of people in thousands of global organizations use MindManager to plan, communicate, and collaborate more effectively across their most business-critical tasks.

MindManager empowers team members to be more productive on their own, work better with each other, and maximize the tools available to them. It's an industry leader in the world of mind mapping, interactive diagramming, strategic business planning, task and project management, and more.

BRAINSTORMING & IDEATION

STRATEGIC PLANNING

PROCESS DESIGN & DOCUMENTATION

MEETING MANAGEMENT

Work better & faster together

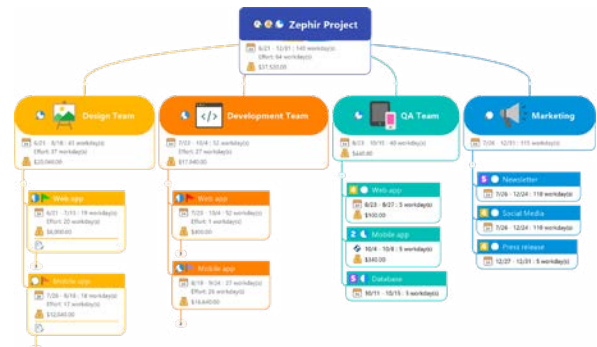

- Collaborate with others in co-editing sessions in real time to drive understanding, alignment & buy-in.
- Transform a dynamic brainstorm into an executable strategy in a single team session.
- Save and share maps in Dropbox, Google Drive, OneDrive, SharePoint, or Box.

Centralize & simplify execution

- Create maps from sources such as SharePoint, Outlook, and Excel, and aggregate data from other maps.
- Easily command large amounts of data with powerful search, filtering and indexing tools.
- Connect and correlate files, links, media, notes and more, to create rich, comprehensive, shareable dashboards.

Plan & manage masterfully

- Understand project timelines and priorities by assigning resources, rolling up costs, mapping timelines and more.
- View projects by resource, tasks, timeline, Gantt chart and more for 360-degree visibility into status, red flags and risks.
- Effortlessly balance big-picture project goals with the details that make it all come together.

WORK FASTER, BETTER, AND MORE CONNECTED.

Built-in templates for productivity • Risk assessment • Decision making • Project planning and many more

What's included in MindManager Enterprise

Built for your business

- **All-platform access**
MindManager works the way you do. Use it on Windows, Mac, Microsoft Teams, Chromebook, and Web.
- **Cross-platform co-editing**
Collaborate in real-time with multiple participants or edit shared documents across all platforms.
- **Advanced project planning & task management tools**
Resource and cost tracking, project reports, Kanban and Gantt views, and more.
- **SharePoint Linker for Desktop**
Easily query SharePoint content and apply it to your diagrams.
- **MindManager Reader**
Enables team members to open & view MindManager files across Windows, Mac, and SharePoint.
- **Microsoft Teams integration**
Maintain project dashboards, conduct brainstorming sessions, and keep shared repositories up to date all within Microsoft Teams.
- **Content control**
Manage editing access in shared maps.
- **Cloud & mobile services**
Capture and share using the MindManager Snap capture tool and take your maps with you using the MindManager Go* mobile viewer app.
